ANNEXES

DU MEMOIRE

En vue de l'obtention du

Certificat de Capacité d'Orthophoniste

présenté par

Anaëlle CUDILLA

Les décisions d'accompagnement orthophonique en Instituts Médico-Educatifs

Influence du niveau socio-économique des parents et d'autres variables sur l'éligibilité à un suivi

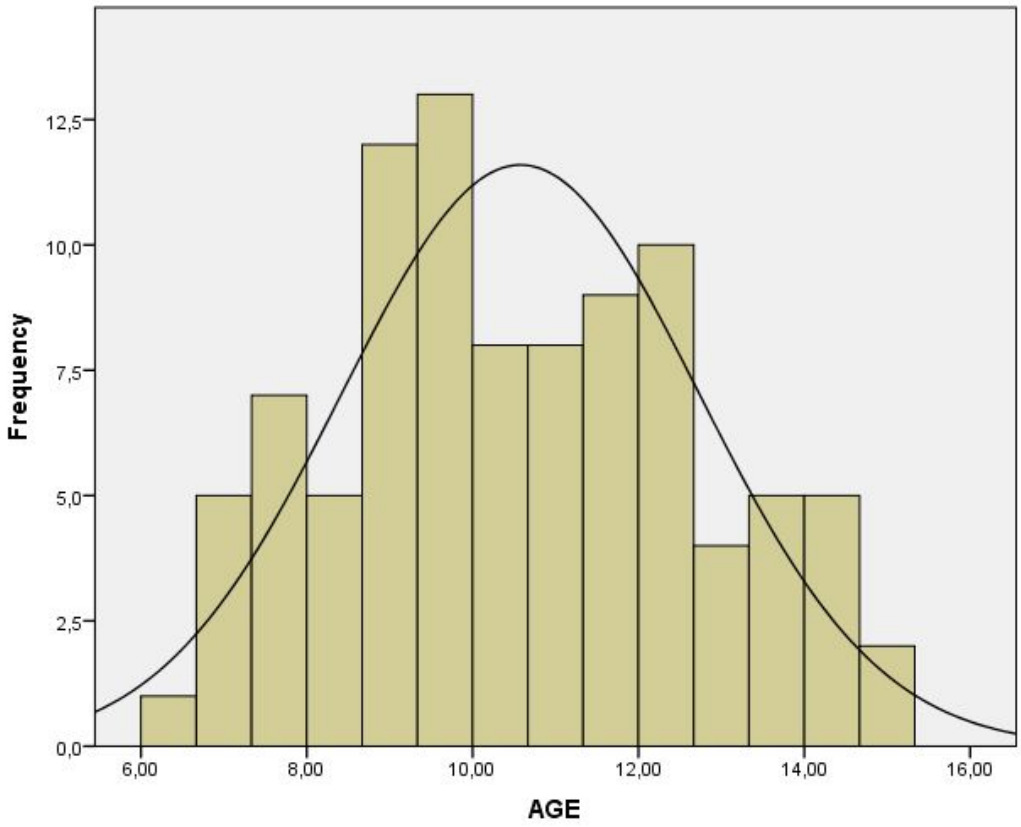
MEMOIRE dirigé par

Bruno FACON, Professeur des Universités, SCALab - Université de Lille

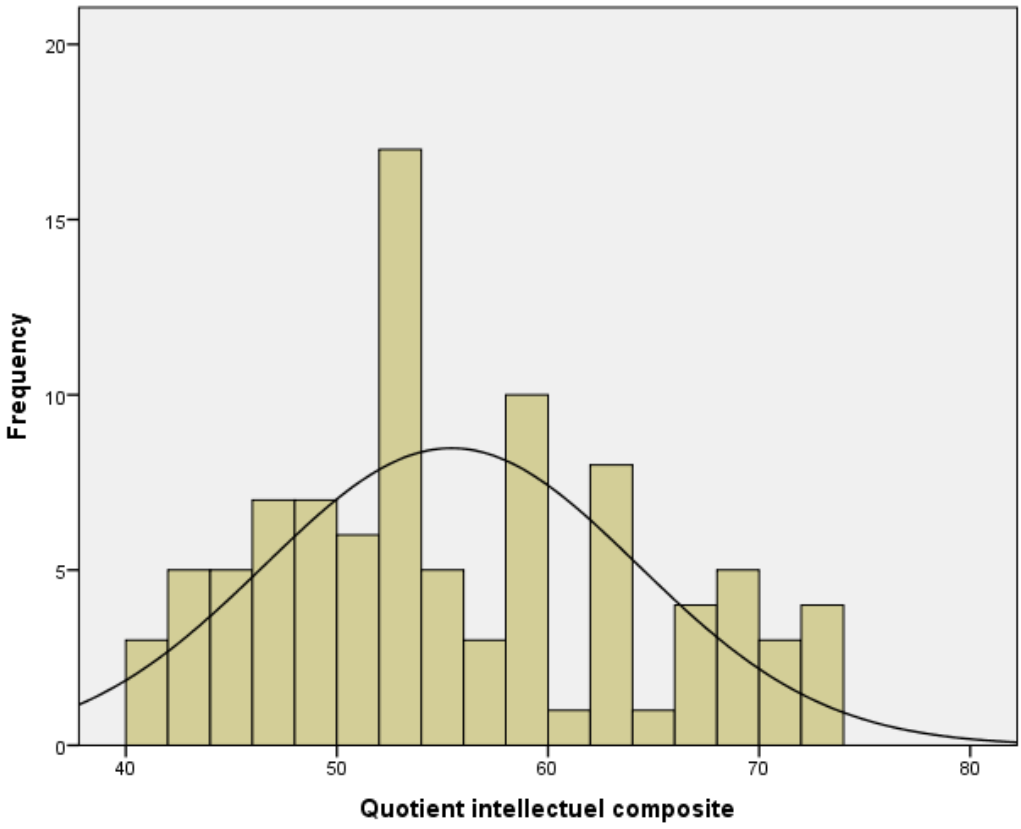
Lucie MACCHI, Maître de conférences, Département d'orthophonie - STL - Université de Lille

Lille – **2019**

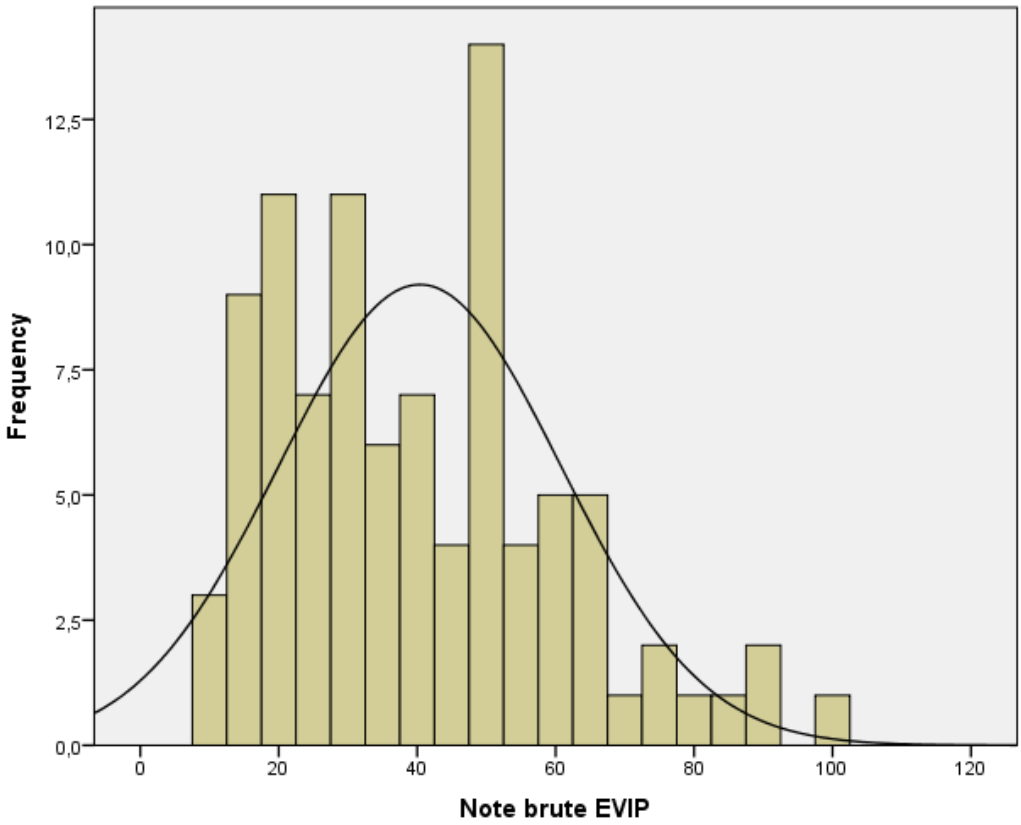
Annexe 1 : Histogrammes des variables non transformées



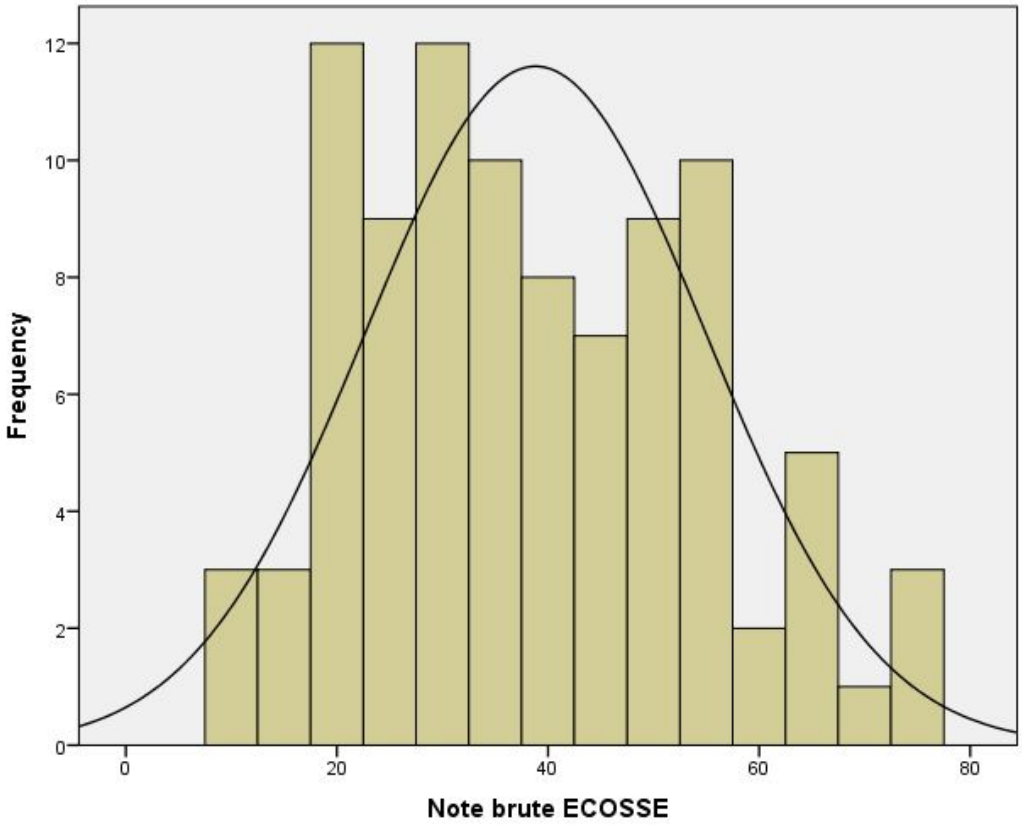
Distribution non transformée de la variable Age chronologique.



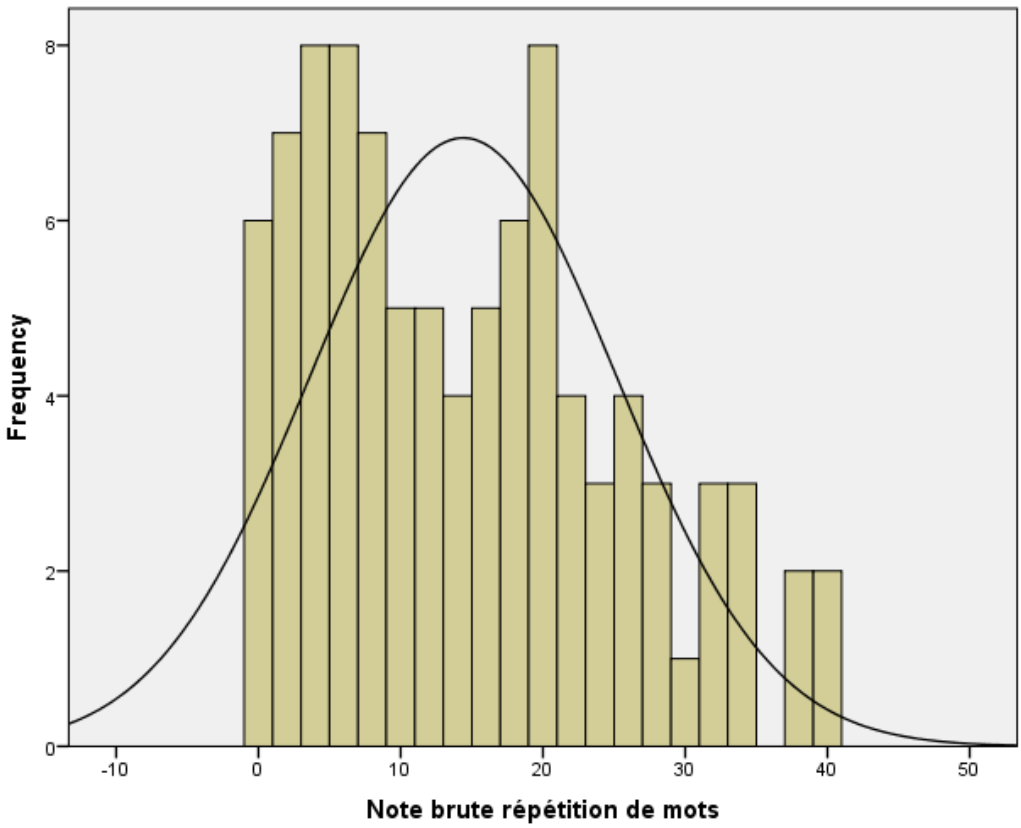
Distribution non transformée de la variable Quotient intellectuel composite.



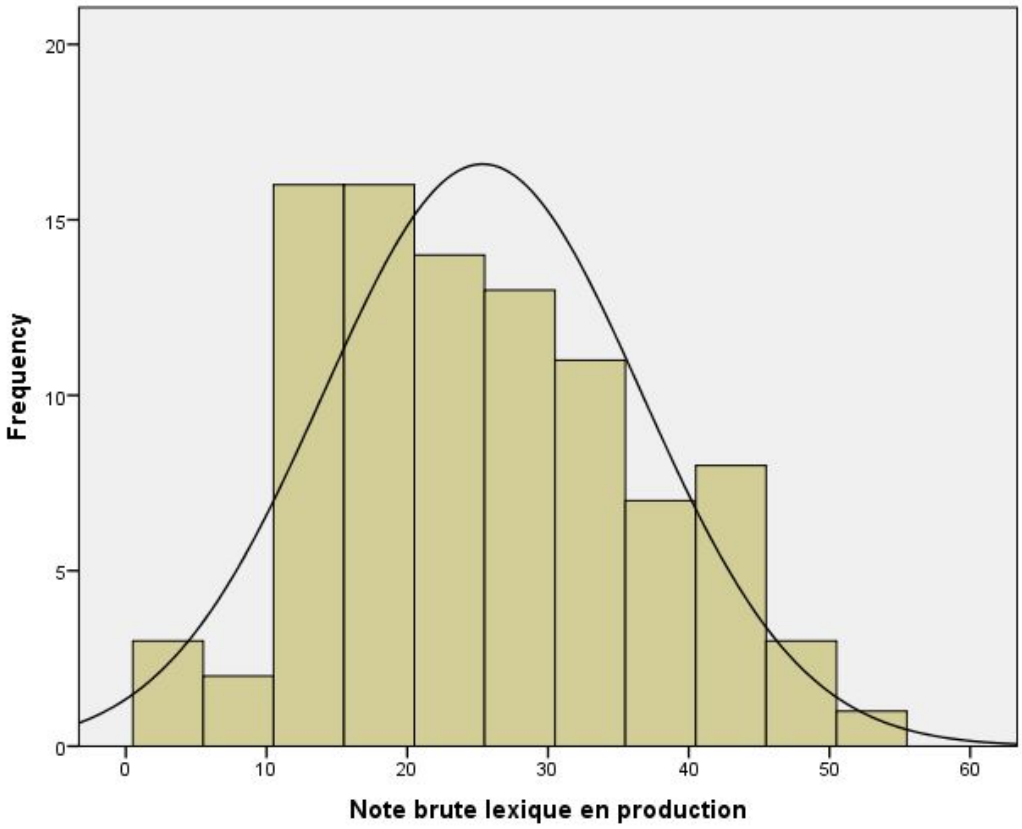
Distribution non transformée de la variable Note brute EVIP.



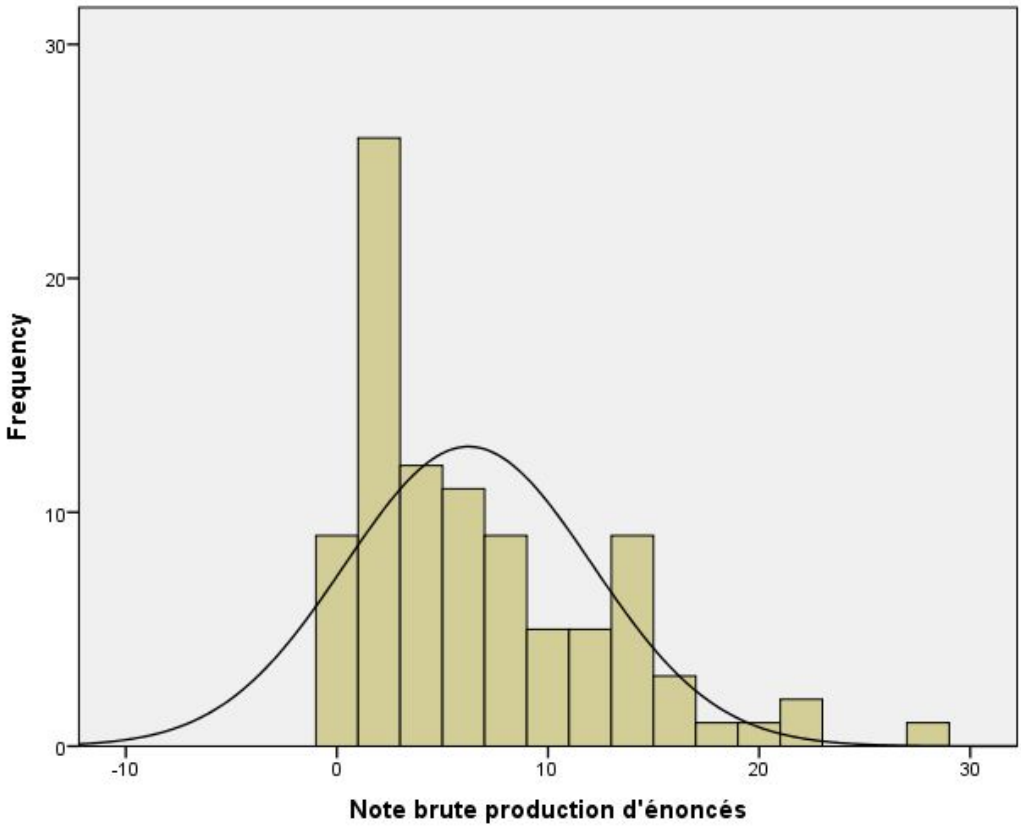
Distribution non transformée de la variable Note brute E.CO.S.SE.



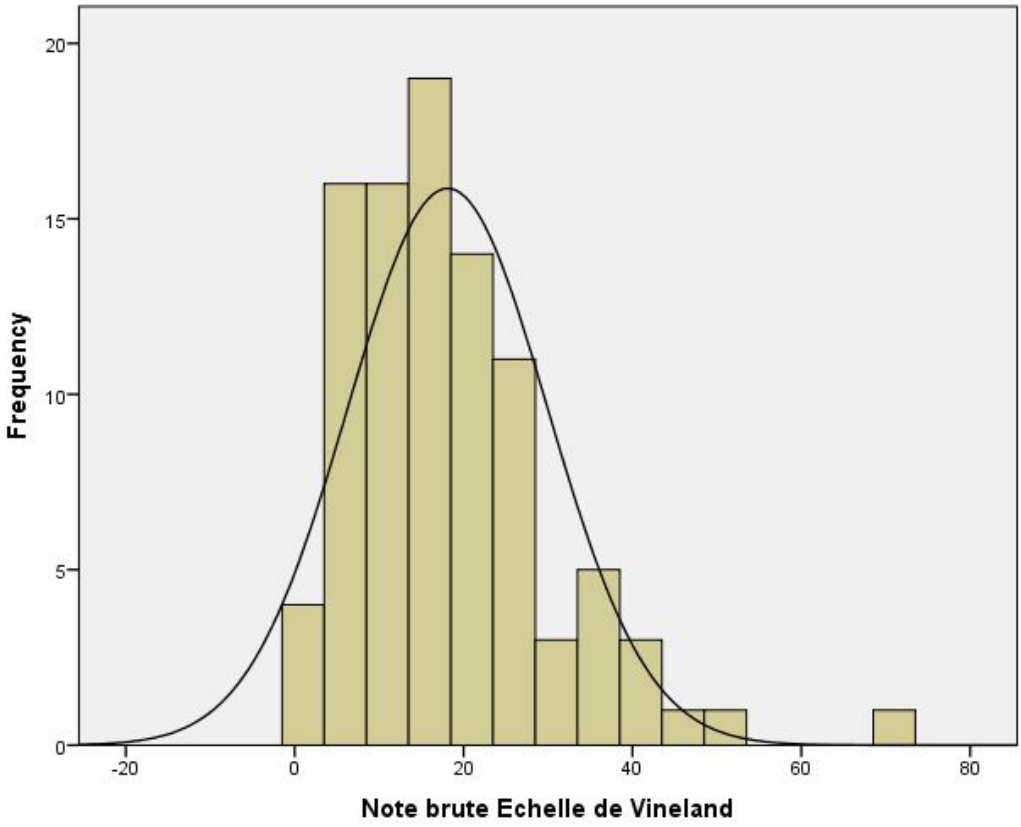
Distribution non transformée de la variable Note brute Répétition de Mots.



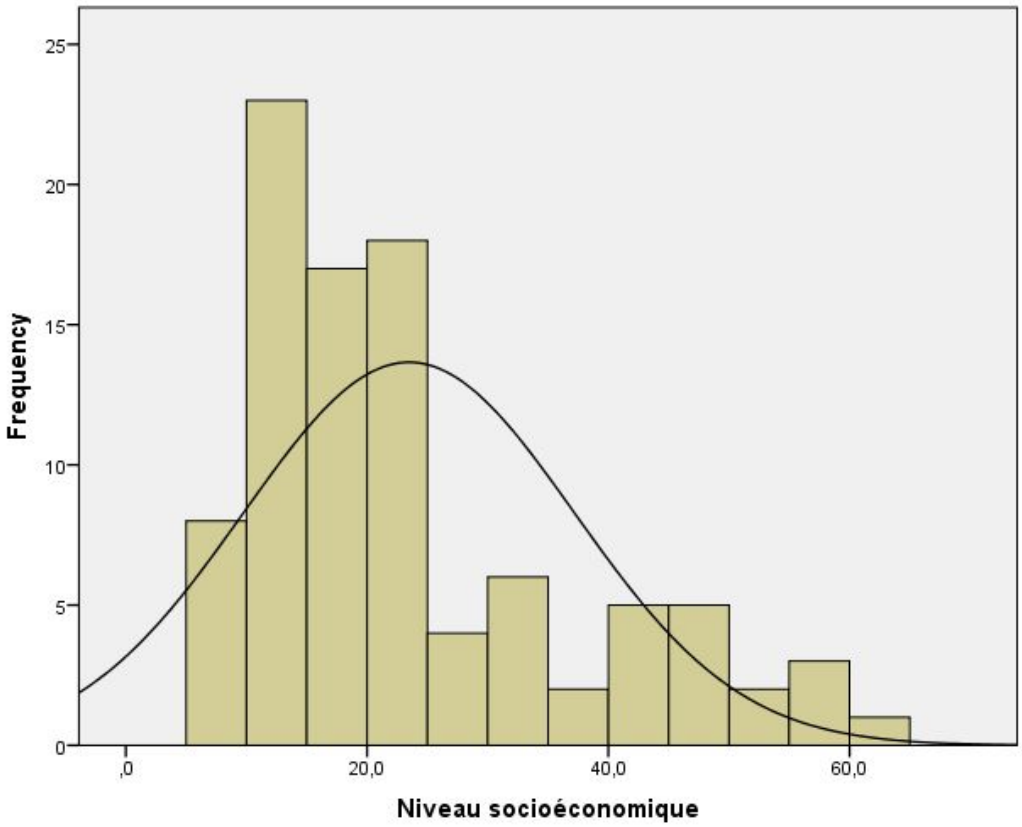
Distribution non transformée de la variable Note brute Lexique en Production.



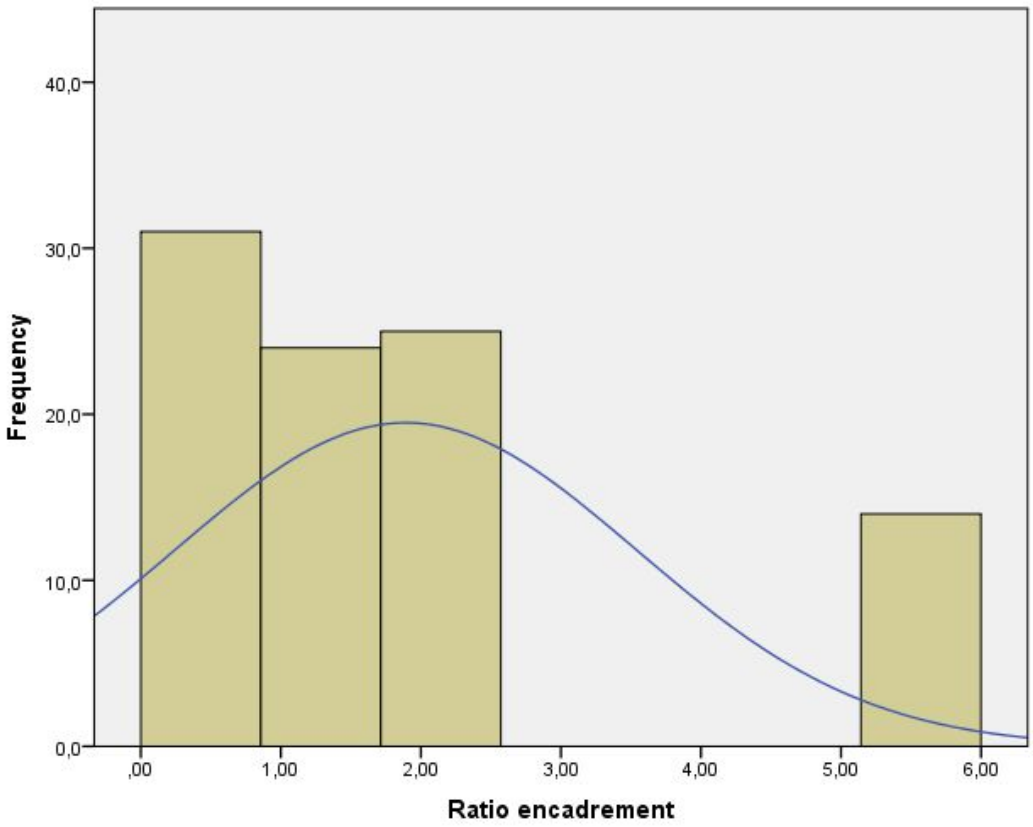
Distribution non transformée de la variable Note brute Production d'Enoncés.



Distribution non transformée de la variable Note brute Echelle de Vineland.

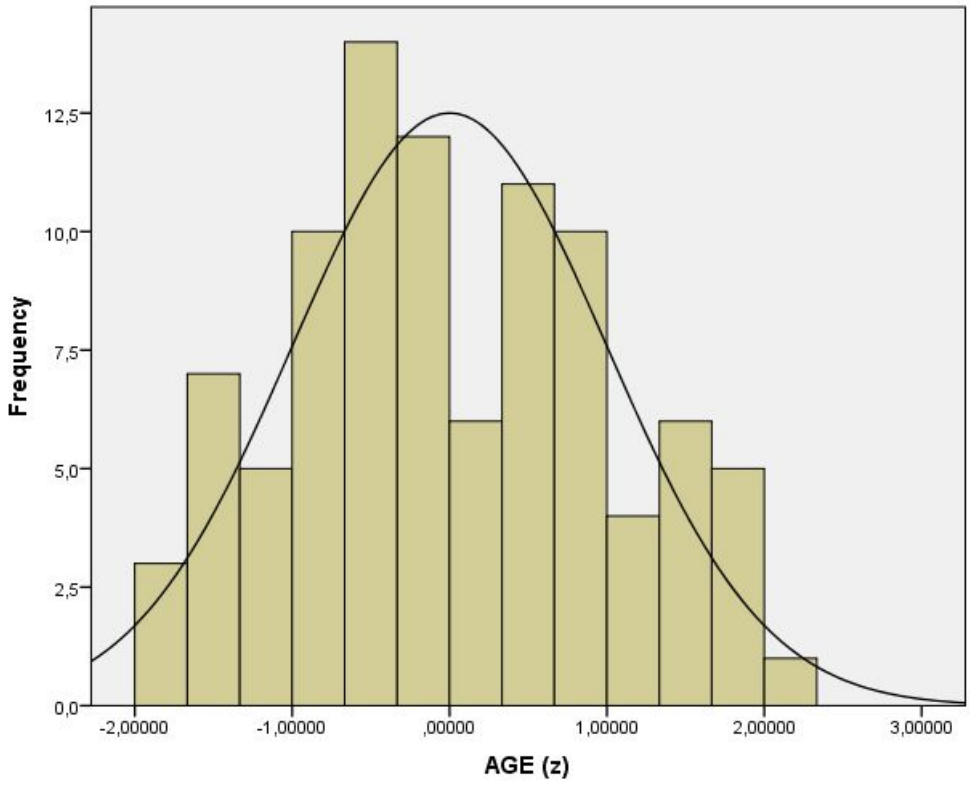


Distribution non transformée de la variable Niveau socio-économique.

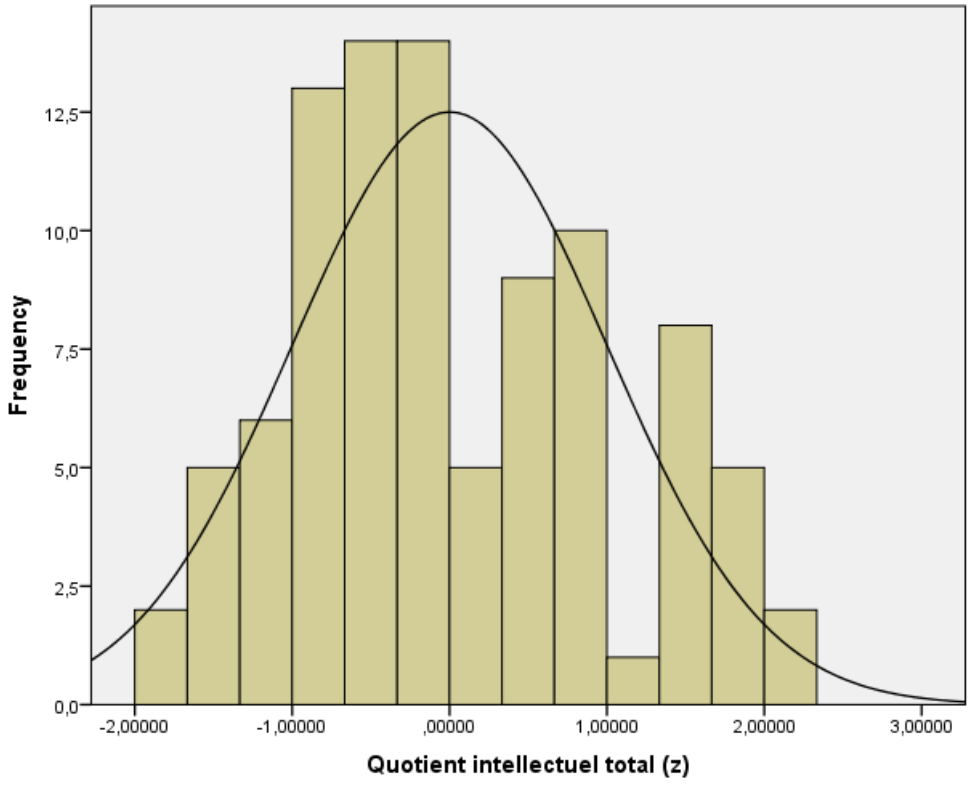


Distribution non transformée de la variable Ratio encadrement.

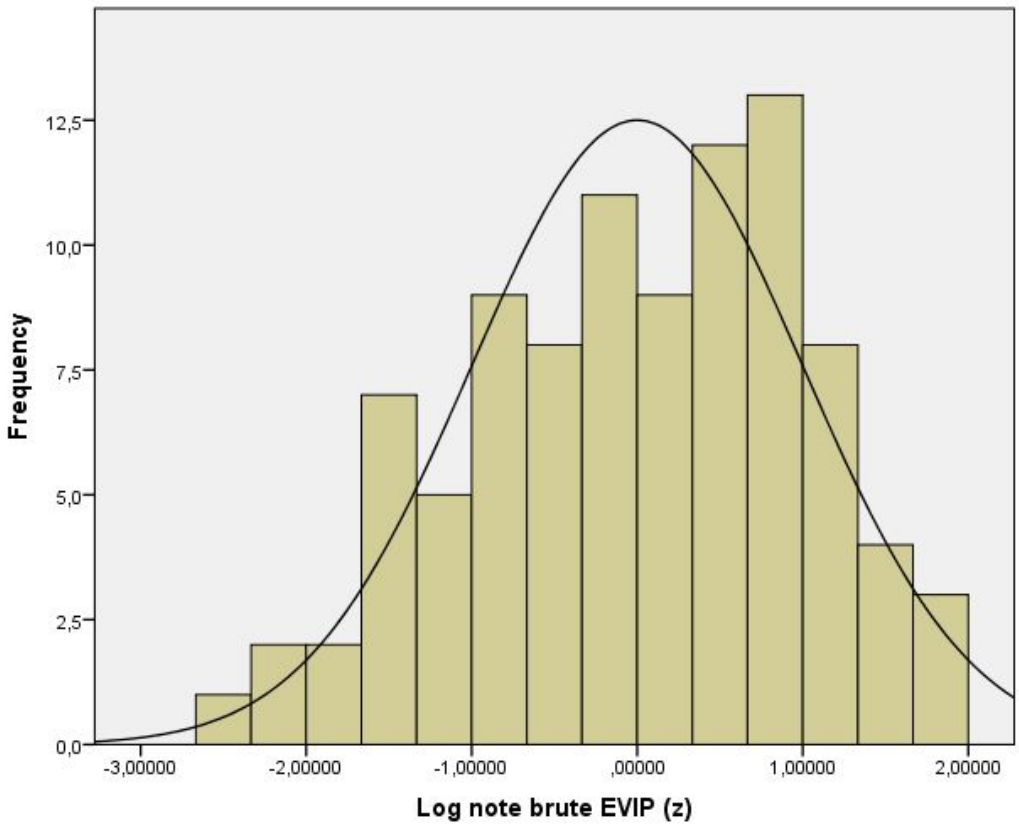
Annexe 2 : Histogrammes des variables standardisées (avec ou sans transformation)



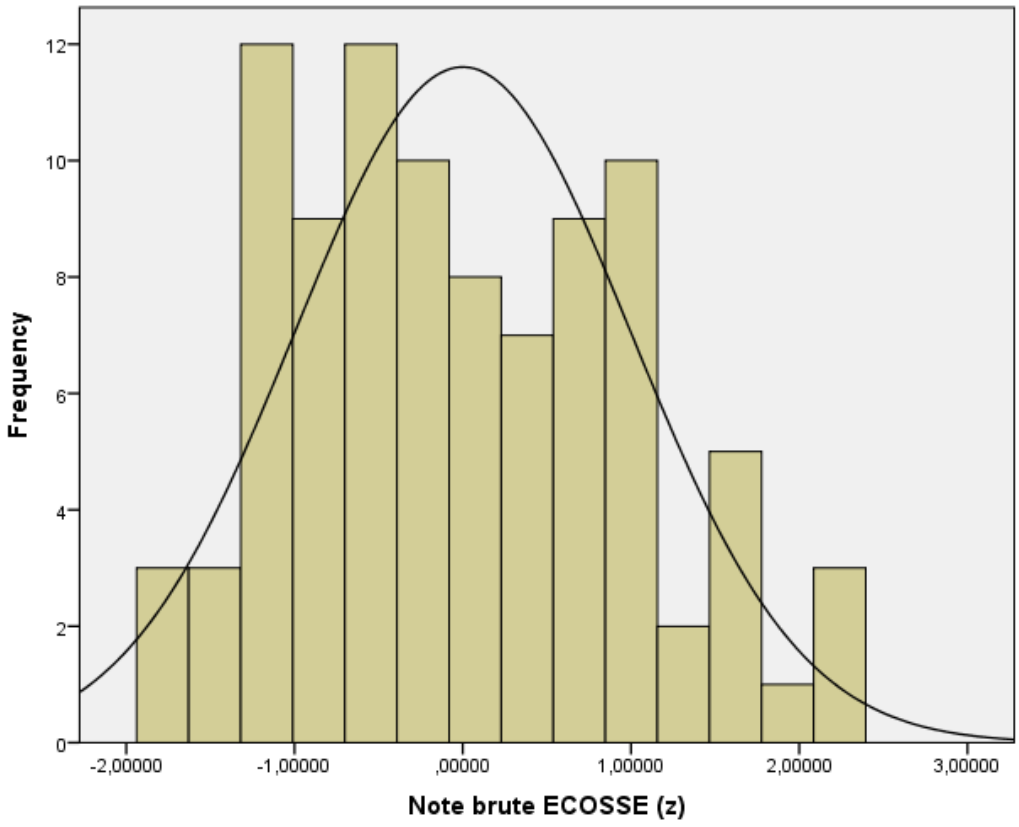
Histogramme de fréquence de la variable standardisée Age chronologique.



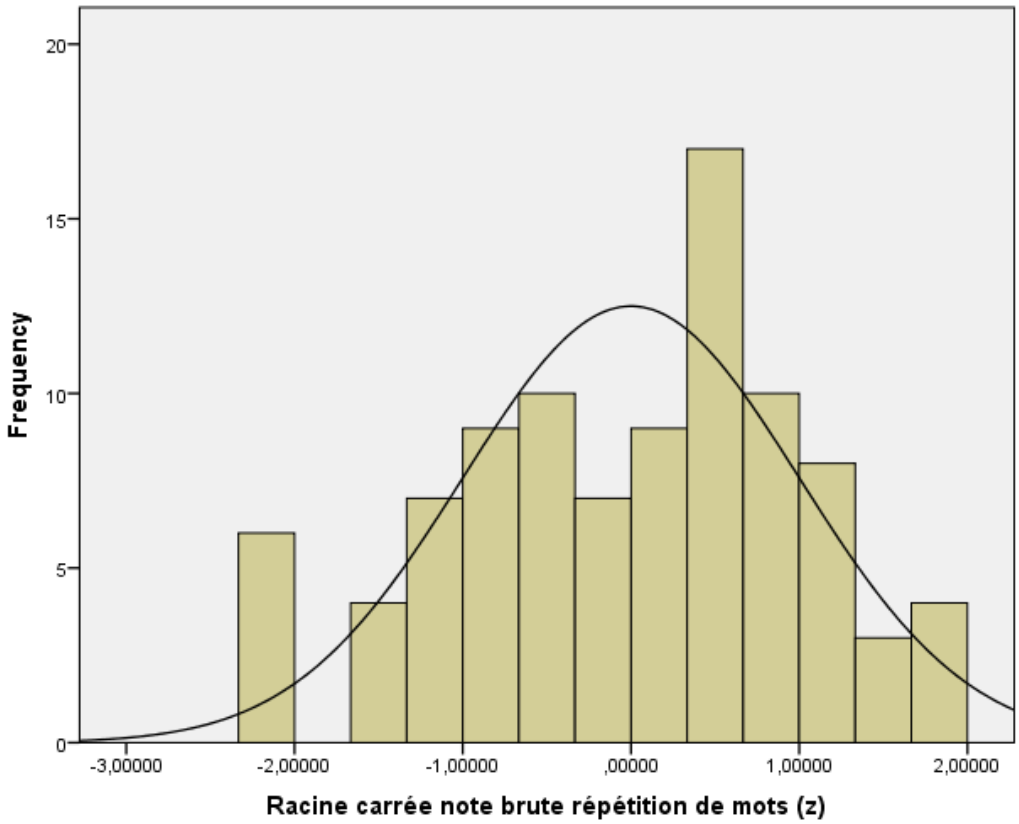
Histogramme de fréquence de la variable standardisée Quotient Intellectuel total.



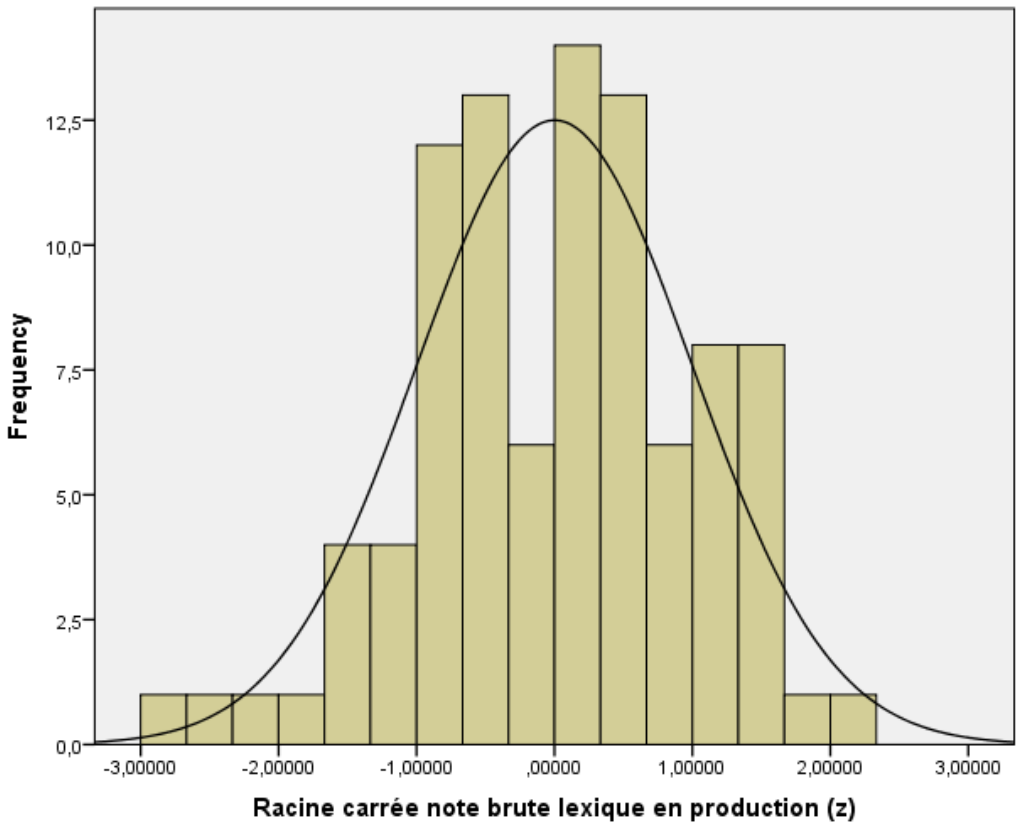
Histogramme de fréquence de la variable standardisée Note brute EVIP.



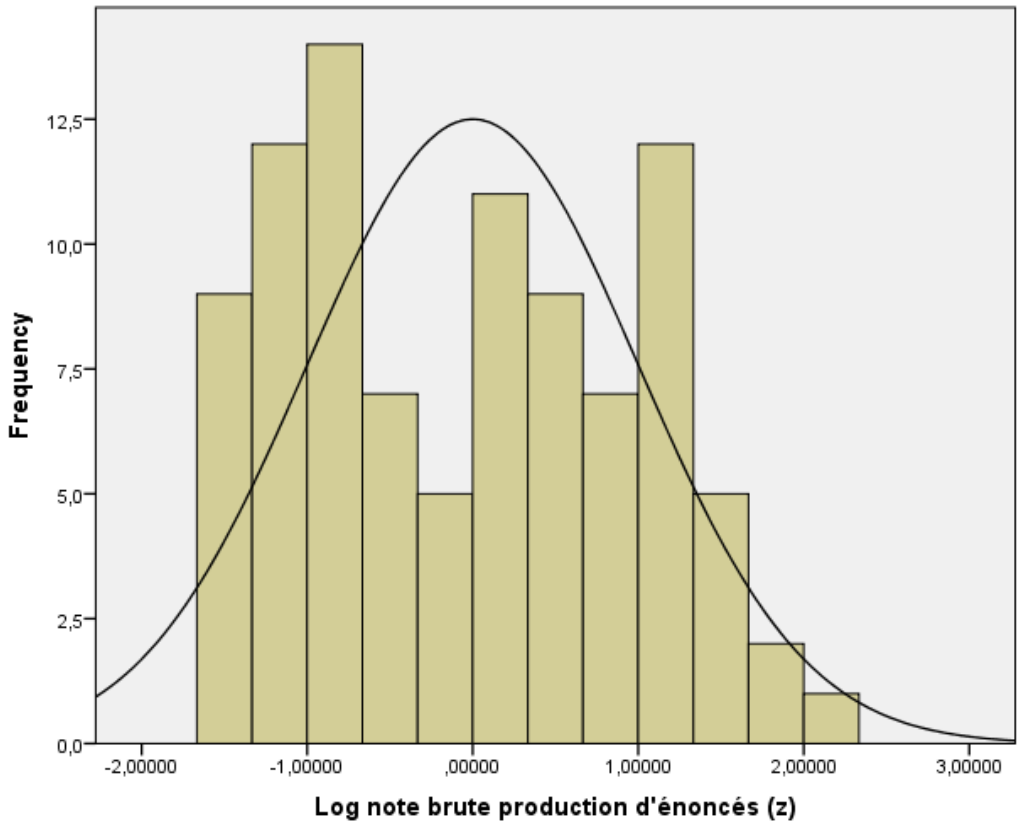
Histogramme de fréquence de la variable standardisée Note brute E.CO.S.SE.



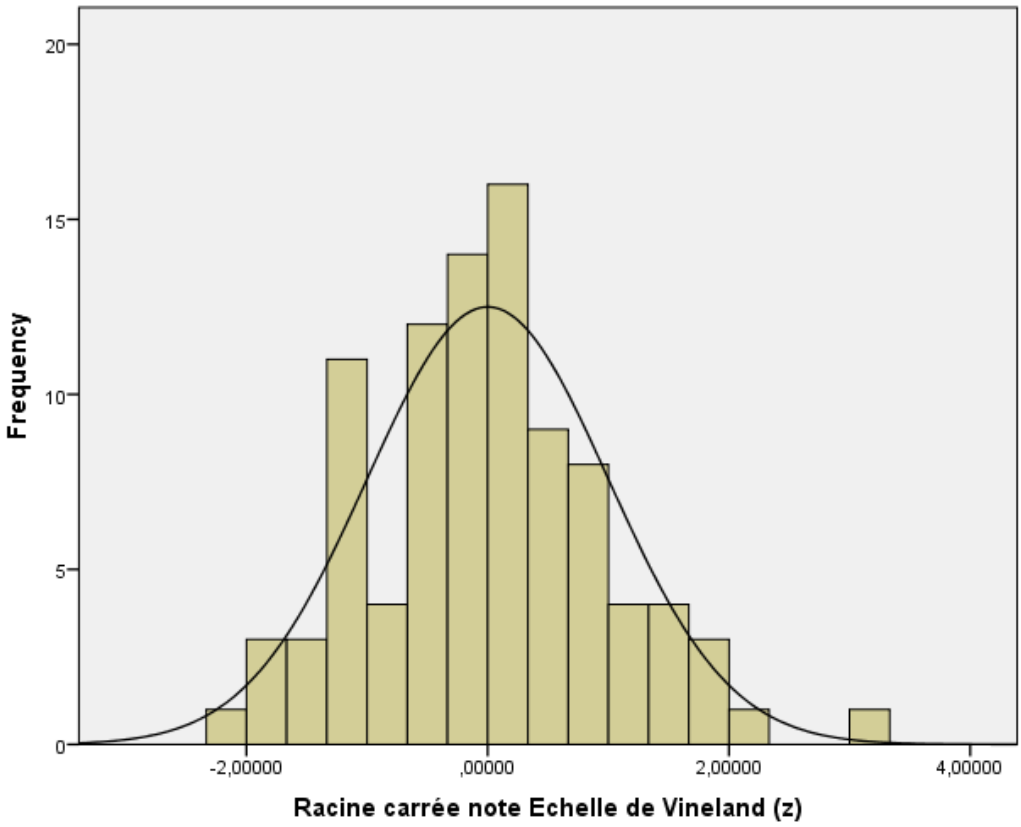
Histogramme de fréquence de la variable standardisée Note brute Répétition de Mots.



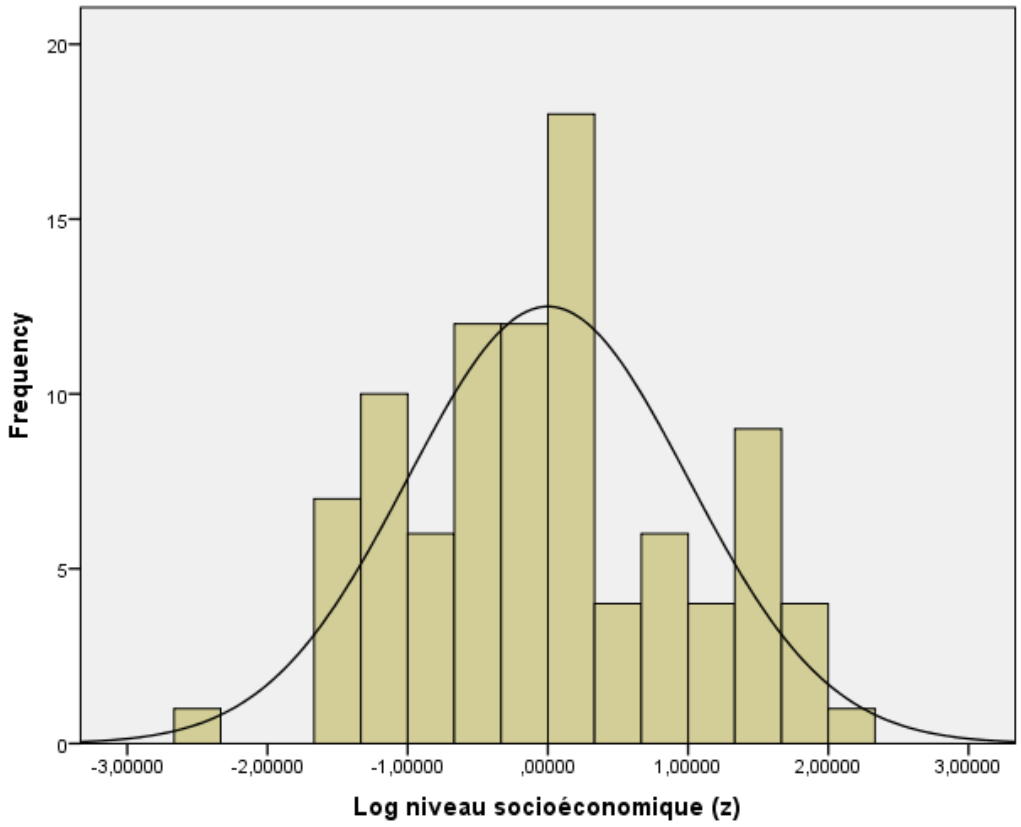
Histogramme de fréquence de la variable standardisée Note brute Lexique en Production.



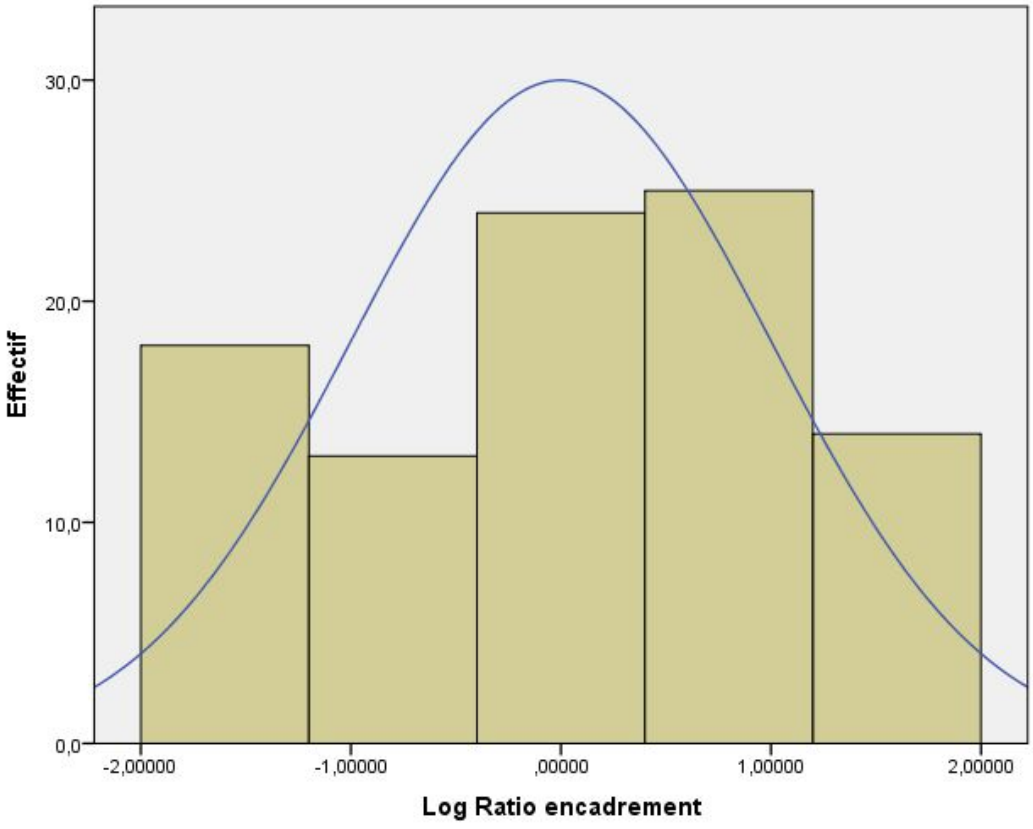
Histogramme de fréquence de la variable standardisée Note brute Production d'Enoncés.



Histogramme de fréquence de la variable standardisée Note brute Echelle de Vineland.



Histogramme de fréquence de la variable standardisée Niveau socio-économique.



Histogramme de la variable standardisée Ratio encadrement.
